What information we collect about you:

We collect information about you when you provide it to us, when you use our Services, and when other sources provide it to us, as further described below.

Information you provide to us

We collect information about you when you input it into the Services or otherwise provide it directly to us.

Account and Profile Information: We collect information about you when you register for an account, create or modify your profile, set preferences, sign-up for or make purchases through the Services. For example, you provide your contact information and, in some cases, billing information when you register for the Services. You also have the option of adding a display name, photos, and other details to your profile information to be displayed in our Services. We keep track of your preferences when you select settings within the Services.

Content you provide through our products: The Services include the ALL4GO products you use, where we collect and store content that you post, send, receive and share. This content includes any information about you that you may choose to include: we collect feedback you provide directly to us through the product and we collect clickstream data about how you interact with and use features in the Services.

Content you provide through our websites: The Services also include our websites owned or operated by us. We collect other content that you submit to these websites, which include social media or social networking websites operated by us. For example, you provide content to us when you provide feedback or when you participate in any interactive features, surveys, contests, promotions, activities or events.

Payment Information: We collect certain payment and billing information when you register for certain paid Services. For example, we ask you to designate a billing representative, including name and contact information, upon registration. You might also provide payment information, such as payment card details, which we collect via secure payment processing services. We have only one billing representative that has access to all the payments. All online payments are done via bank 3D secured platform.

We collect information about you when you use our Services, including browsing our websites and taking certain actions within the Services.

Your use of the Services: We keep track of certain information about you when you visit and interact with any of our Services. This information includes the features you use; the links you click on and how you interact

with others on the Services. We also collect information about the teams and people you work with and how you work with them, like who you collaborate with and communicate with most frequently.

Device and Connection Information: We collect information about the computer you use to access the Services. This device information includes your connection type and settings when you install, access, update, or use our Services. We also collect information through your device about your operating system, browser type, IP address, URLs of referring/exit pages, device identifiers, and crash data. We use your IP address and/or country preference in order to approximate your location to provide you with a better Service experience. How much of this information we collect depends on the type and settings of the device you use to access the Services.

Cookies: ALL4GO and our third-party partners, such as our advertising and analytics partners, use cookies and other tracking technologies (e.g., web beacons, device identifiers and pixels) to provide functionality and to recognize you across different Services and devices.

How we use the information that we collect

Below are the specific purposes for which we use the information we collect about you.

To provide the Services and personalize your experience: We use information about you to provide the Services to you, including to process transactions with you, authenticate you when you log in, provide customer support, and operate and maintain the Services. For example, we use the name and pictures you provide in your account to identify you to other Service users. Our Services also include tailored features that personalize your experience, enhance your productivity, and improve your ability to collaborate effectively with others by automatically analyzing the activities of your team to provide activity feeds and notifications that are relevant for you and your team. We may use your email domain to infer your affiliation with a particular organization or industry to personalize the content and experience you receive on our websites. Where you use multiple Services, we combine information about you and your activities to provide an integrated experience, such as to allow you to find information from one Service while searching from another or to present relevant product information as you travel across our websites.

For research and development: We are always looking for ways to make our Services smarter, faster, secure, integrated, and useful to you. We use collective learnings about how people use our Services and feedback provided directly to us to troubleshoot and to identify trends, usage, activity patterns and areas for integration and improvement of the Services. We also test and analyze certain new features with some users before rolling the feature out to all users.

To communicate with you about the Services: We use your contact information to send transactional communications via email and within the Services, including confirming your purchases, reminding you of products expirations, responding to your comments, questions and requests, providing customer support, and sending you technical notices, updates, security alerts, and administrative messages. We also send you communications as you onboard to a particular Service to help you become more proficient in using that Service. These communications are part of the Services and in most cases you cannot opt out of them. If an opt out is available, you will find that option within the communication itself or in your account settings.

Cooperation with supervisory authorities

1. The data exporter agrees to deposit a copy of this contract with the supervisory authority if it so requests or if such deposit is required under the applicable data protection law.
2. The parties agree that the supervisory authority has the right to conduct an audit of the data importer, and of any subprocessor, which has the same scope and is subject to the same conditions as would apply to an audit of the data exporter under the applicable data protection law.
3. The data importer shall promptly inform the data exporter about the existence of legislation applicable to it or any subprocessor preventing the conduct of an audit of the data importer, or any subprocessor, pursuant to paragraph 2.

Governing Law

The Clauses shall be governed by the law of the Member State in which the data controller is established.

Notice to End Users

Some of our products are intended for use by organizations. Where the Services are made available to you through an organization (e.g. your provider or reseller), that organization is the administrator of the Services and is responsible for the accounts and/or Service sites over which it has control. If this is the case, please direct your data privacy questions to your administrator, as your use of the Services is subject to that organization's policies. We are not responsible for the privacy or security practices of an administrator's organization, which may be different than this policy.

Administrators are able to:

- terminate your access to the Services;
- install or uninstall third-party integrations

Even if the Services are not currently administered to you by an organization, if you use an email address provided by an organization (such as your work email address) to access the Services, then the owner of the domain associated with your email address (e.g. your provider) may assert administrative control over your account and use of the Services at a later date. You will be notified if this happens.

Once an administrator asserts control over your account or use of the Services, you will no longer be able to change the email address associated with your account without administrator approval.

Please contact your organization or refer to your administrator's organizational policies for more information.

Our policy towards children
